

OFFICIAL SUBSCRIPTION, TRANSPARENT PRICING & REFUND POLICY

Platform: "School" ERP (school.modernisum.com) | Parent Website: modernisum.com |
Founder: Mr. Shivank Kumar | Territory & Currency: India (INR – ₹)

PUBLIC PRICING PAGE & FOOTER POLICY MANDATE: This document governs all subscription billing, Razorpay gateway settlements, UPI AutoPay mandates, non-disruptive grace periods, and third-party AI/Cloud integrations for "School" ERP (school.modernisum.com). Modernisum Technologies guarantees **100% Transparent Flat Pricing**—every school receives identical software features and updates with zero hidden charges, zero ads, and zero fees charged to parents, students, or staff.

1. TRANSPARENT PER-STUDENT PRICING & CYCLE CALCULATOR (INR)

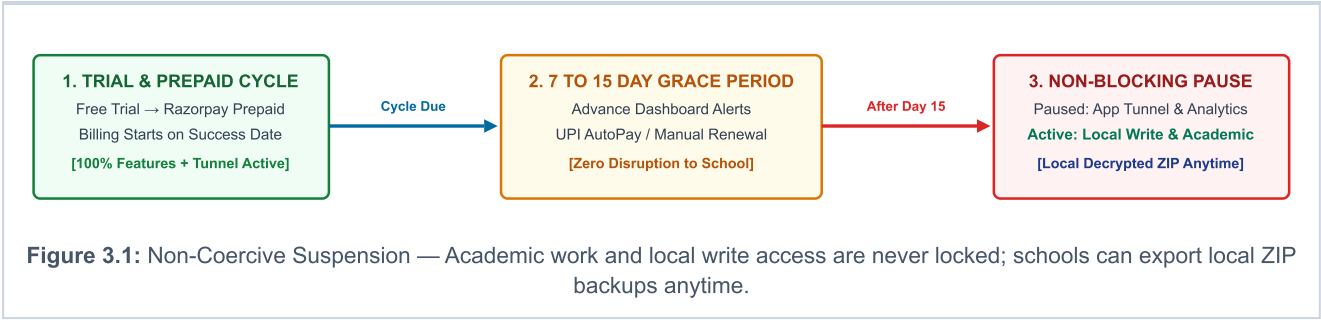

Our pricing is fixed at **₹20 per Active Regular Student per Month**. An "Active Regular Student" means a student currently admitted and studying in the school who has not been issued a Transfer Certificate (TC) or marked inactive:

ACTIVE REGULAR STUDENTS	MONTHLY BASE CALCULATION	QUARTERLY PREPAID (3 MONTHS) [STANDARD CYCLE — 0% OFF]	ANNUAL UPFRONT (12 MONTHS) [FLAT 25% DISCOUNT APPLIED]
1 Active Student	1 × ₹20 = ₹20 / Month	₹60 / Quarter	₹180 / Year Save ₹60
100 Active Students	100 × ₹20 = ₹2,000 / Month	₹6,000 / Quarter	₹18,000 / Year Save ₹6,000
200 Active Students	200 × ₹20 = ₹4,000 / Month	₹12,000 / Quarter	₹36,000 / Year Save ₹12,000
500 Active Students	500 × ₹20 = ₹10,000 / Month	₹30,000 / Quarter	₹90,000 / Year Save ₹30,000

2. EQUAL FEATURES, PREPAID CYCLES, RAZORPAY & UPI AUTOPAY RULES

- 100% Equal Feature Parity (No Paid Tiers or Credits):** Modernisum Technologies does not divide schools into "Basic" or "Pro" tiers. Every school—whether educating 50 students or 2,000 students—receives 100% of all platform features and continuous software updates equally without buying extra plans or credit packs.
- Strictly Prepaid Model & Billing Start Date:** Postpaid billing is not available. Every new school receives a free evaluation trial (7-day standard trial, extendable up to 30 days on promotional onboarding). Once the school completes its advance payment after the trial, the official **Billing Start Date** commences on the exact date the payment succeeds.
- Razorpay Payment Gateway & Settlement Liability:** All payments are processed via **Razorpay**. If a transaction fails prior to settlement, the School has zero liability to credit Modernisum. Conversely, once the payment is deducted from the School's bank account and a valid **Razorpay Payment Success Token** is generated, **Modernisum Technologies assumes 100% legal responsibility** to credit the School's subscription, even if a technical webhook delay temporarily prevents the database from displaying it.
- RBI-Compliant UPI AutoPay Mandate:** When paying via UPI with OTP/PIN authorization on Razorpay, a recurring mandate is registered so the next Quarter's subscription is automatically deducted on the due date. Schools may cancel the mandate prior to the next billing date.
- 0% GST (Statutory MSME Exemption) & Optional Hardware:** As a registered MSME startup (UDYAM-UP-56-0049848) below the statutory CGST turnover threshold, 0% GST applies. Optional physical devices/gadgets ordered by a school are billed solely at unit hardware cost without extra software charges.

3. 7-TO-15 DAY GRACE PERIOD & NON-DISRUPTIVE FEATURE PAUSE WORKFLOW

4. ZERO DATA LOCK-IN, STRICT NO-REFUND & MID-QUARTER CANCELLATION RULES

- **No Academic Work Blockade & Unconditional Local ZIP Export:** If a school fails to pay within the 7-to-15 day grace window, Modernisum Technologies **never blocks the School's core academic operations or local write access, nor does it lock the School's database.** Only external read/sync features—specifically **Student Mobile App visibility, Employee App access, and Read Analytics modules**—are paused. The School Admin can decrypt and export 100% of its database into a **local ZIP file** on its local server at any time.
- **Strict No-Refund Policy (Post-Trial & Mid-Quarter Discontinuation):** Because every school is given a Free Trial prior to payment, **all subscription fees paid after trial evaluation are 100% Non-Refundable.** Once a Quarterly or Annual payment is processed, if a School deletes its account or decides after 1 or 2 months not to use the software during an active quarter, no full or partial refund shall be issued.

5. THIRD-PARTY GOOGLE GEMINI AI (BYOK) & CLOUD STORAGE POLICY

1. Bring Your Own Key (Google Gemini AI)

The ₹20/student platform fee excludes third-party AI subscriptions. Modernisum does not host proprietary LLMs; schools integrate their own **Google Gemini API Key** directly inside the software settings.

2. 15 RPM Free Tier & Low-Token Logic

Google Gemini currently provides a free tier of **15 Requests Per Minute (RPM)**. Our code is engineered to send bare-minimum AI context payloads so schools can run AI features at ₹0 or minimal external cost.

3. School's Own Google Cloud Backup

Automated hourly encrypted backups sync directly to the School's own Google Drive/Cloud account. Any Google storage upgrade beyond Google's free tier is managed directly by the School.

4. B2B Model & Meerut Jurisdiction

Our sole business partner is the School Admin. We never monetize student/staff data or ask parents for money. All billing disputes fall under the exclusive jurisdiction of **Meerut Courts, UP.**
